Reasons for Allowance

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7-10-09 has been entered.

The following is an examiner's statement of reasons for allowance:

Support for "comprising serum" (claim 1 as amended) can be found in the specification as originally filed taken with the knowledge of those of skill in the art at the time of filing.

Claim Rejections - 35 USC § 112

New Matter

The rejection of claims 1, 3-5, 7-13, 16 and 20 under 35 U.S.C. 112, first paragraph, new matter has been withdrawn. The species of "sodium pyruvate" in claim 1 implies the genus was not contemplated in the specification as originally filed. Sodium pyruvate is disclosed on pg 13 in Table 1 and on pg 14 in Tables 2 and 3. The scope of sodium pyruvate is narrower in scope than the scope of pyruvate. The broader scope of pyruvate is not readily apparent from the narrower embodiment. The species of sodium pyruvate in Tables 1-3 does not imply other species of pyruvate such as

calcium pyruvate. Accordingly, the narrower scope of sodium pyruvate does not imply applicants contemplated using the broader scope of any pyruvate in culture medium.

Applicants argue the species of sodium pyruvate implies applicants had contemplated the broader genus. Applicants' argument is not persuasive. The species of sodium pyruvate in Tables 1-3 (pg 13-14) does not imply other species of pyruvate such as calcium pyruvate.

Enablement

The rejection of claims 1, 3-5, 7-13, 16 and 20 under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement has been withdrawn in view of the amendment and applicants' arguments.

Double Patenting

The rejection of claims 1, 3-5, 7-13, 16 and 20 under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1 and 7-13 of U.S. Patent No. 6,777,205 has been withdrawn because the inventions now claimed are patentably distinct. The concept of expressing EPO without non-coding fragments from 5' and 3' regions in US Patent 6,777,205 is patentably distinct from culturing cells in the culture media with serum and culturing the cells in media consisting of DMEM,... ..and serine as additives as now claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Inquiry concerning this communication or earlier communications from the examiner should be directed to Michael C. Wilson who can normally be reached at the office on Monday, Tuesday, Thursday and Friday from 9:30 am to 6:00 pm at 571-272-0738.
